

EVORA

Poa pratensis

- Perfect for tall fescue mixtures
- High wear tolerance
- Light to medium green colour
- Medium-large leaves and density

4salt

Perfect for mixtures with tall fescue

EVORA has medium density and the leaves are quite large. This gives a very homogeneous aspect when mixed with tall fescue.

These two species are also a perfect fit for hot and dry conditions where they match each other to produce the best possible turf summer and winter.

Allround nice and dense variety

As tall fescue, Poa pratensis contributes to increased wear tolerance allowing use for playgrounds and sport fields.

Technical Specifications

- Kentucky bluegrass
- Turf Type Smooth Stalked Meadowgrass
