

GEISHA

Poa pratensis

- Start-up variety into RSM quality
- Core area is bulk playground and sports turf
- Good disease resistance
- Fast establishment

Good wear tolerance and early spring growth

GEISHA has strong characters in the typical performance of Smooth-stalked Meadow Grass. A good wear resistance and good amenity quality in terms of turf density especially for playground turf use.

The summer colour is mid-green.

With the quick and good establishment of a Poa pratensis and an early spring growth, GEISHA is ready for an early season start.

It is a start-up variety into the quality market due to the RSM Listing.

Technical Specifications

- Kentucky bluegrass
- Literal translation of GEISHA into English: "Performing Artist"
- Listed/recommended in EU BY CZ DE RU TR UA UK
