

JAMBOREE

Festuca arundinacea

- Excellent visual merit
- Dark attractive green colour
- Good leaf spot tolerance
- Very good tolerance to Microdochium

Top ranked in French official trials

With high indices for Lawn and Sport use, Jamboree is suitable for use in sport fields and on playgrounds exposed to frequent traffic, as well as private lawns and public parks.

The establishment is fast, ensuring good competition with weeds and other grasses in mixtures.

Diseases

Good resistance to leaf spot, Microdochium patch and brown patch (France, NTEP USA).

Slow growing in NTEP (USA)

NTEP 2007-11 Jamboree is a slow growing variety with excellent performance in Schedule A trials (high maintenance, fairways).

Technical Specifications

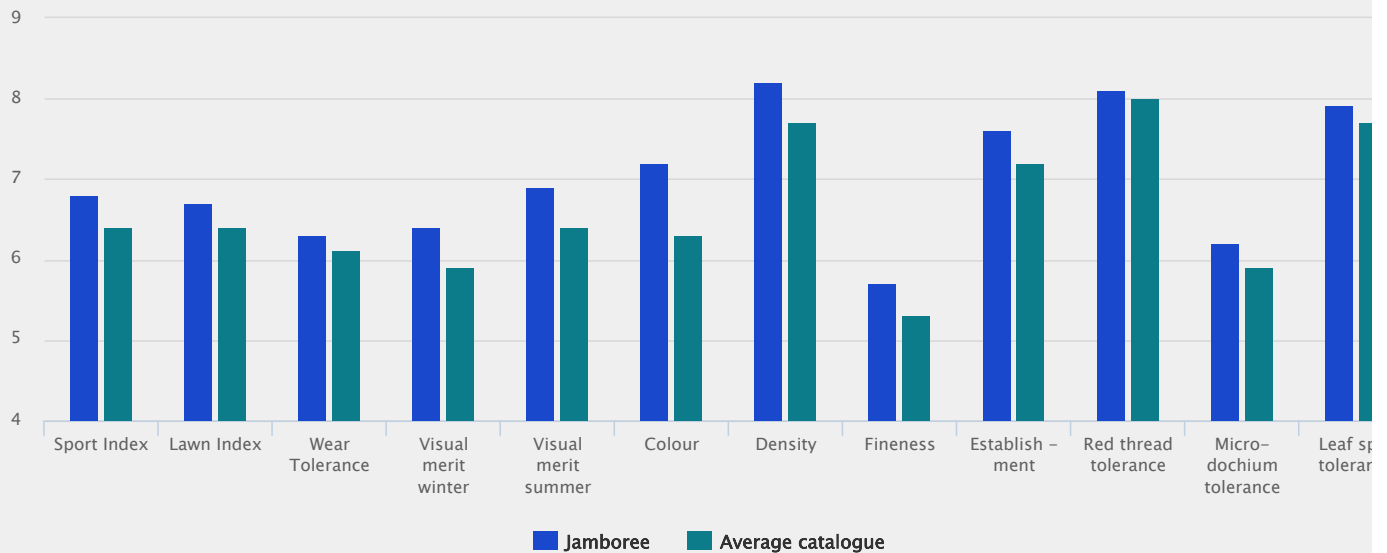

- Tall fescue
- Slow growing, for both sport & lawn use
- Listed/recommended in EU BY DK FR RU TR
