

MAGICIAN

Lolium perenne

- Very high and early production
- Very high yields under grazing
- High yield under conservation
- Good winterhardiness

Unique Combination

Growers looking for thrilling performance should include MAGICIAN in their mixtures with GREENGOLD as the combination of spring and autumn growth offers an exceptional advantage.

Supernatural Spring Growth

MAGICIAN is an early heading variety within the intermediate group. Its incredible spring growth yield together with very high grazing yields demand that MAGICIAN is included in mixtures where early bite is essential.

Magical Yields

MAGICIAN has exceptional grazing yields, as well as very good conservation yields. This means that the variety fulfils a dual-purpose role and does not restrict the grower to single purpose management regimes.

Technical Specifications

- Perennial ryegrass
- No Illusion! Grass that Grows Like Magic!
- Listed/recommended in LU
- Lateness: Intermediate
