

WETHERBY

Lolium perenne

- Superb for Grazing
- Excellent for Cutting
- Excellent Winter Hardiness
- Excellent Persistence
- Good Resistance to Crown Rust.

Our new late heading perennial ryegrass, WETHERBY, is an excellent all round variety, ideal for including in both grazing and cutting mixtures

GRAZING

Being a late heading variety WETHERBY is ideal.

"Excellent yield, D-value and ME yield under simulated grazing" NIAB

CUTTING

"Excellent yields under conservation management, with excellent ground cover in the third harvest year." NIAB

Excellent winter hardiness.

Good resistance to crown rust.

Technical Specifications

- Perennial ryegrass
- Listed/recommended in UK

Performance of WETHERBY in NIAB trials
