

# YVETTE

Poa pratensis

- Slow regrowth
- Fine leaves
- Red thread tolerance
- Medium green colour

## 4salt

### Slow regrowth

Yvette has a very slow regrowth enabling a nice appearance for longer time and reduced maintenance.

### Very good resistance to red thread disease

Yvette show very good tolerance to red thread disease. Red thread is particularly present when nitrogen supply is low.

### Fine leaves and good summer appearance

Yvette is amongst the most fine leaved Poa pratensis varieties and can advantageously be part of most mixtures for prestigious lawns. Yvette has better summer appearance than most other Poa pratensis.

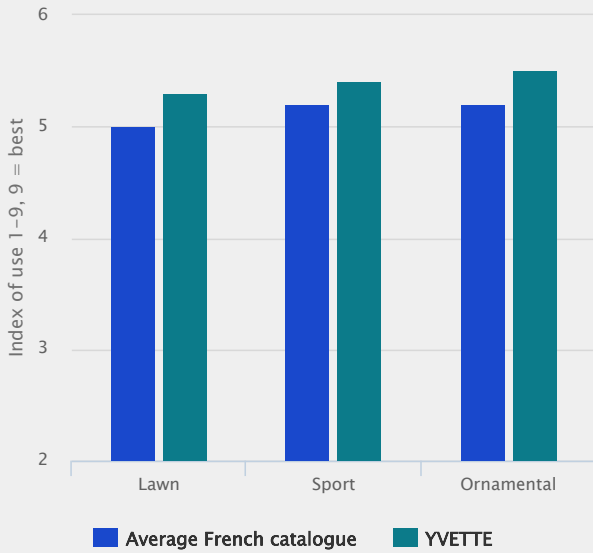

## Technical Specifications
