Ratings

Turflin® Triumph contains lawn grass seed as used on the football stadiums across in Europe.

An important part is the Quick Action® technology in the perennial ryegrass which is enhanced grass seed with fast and strong establishment at soil temperatures as low as 3°C.

Turflin® Triumph establishes faster than lawn grass mixtures without Quick Action®, is hard-wearing and optimal for areas with hard usage and a lot of traffic, is very dense and it recovers fast after damages from wear or traffic.

Quick Action® is only available from DLF
