

Perennial ryegrass

Very suitable where shade is a problem

- Superior in conditions of wear+shade!
- Very high ranking in UK, NL and F for sport
- Very good wear tolerance
- Good tolerance to rusts, red thread and leaf spot

Ratings

Sport + Lawn: Also with shade!

The French official results ranks Gianna at the top of the list for both sport and lawn use. With very high scores for wear tolerance and density. The visual merit is very high in average, also during winter and summer. DLF R&D trials combining artificial wear and shade (tunnel), identified Gianna as superior to most other varieties. Sure that Gianna will find its way to modern winter game stadiums!

Disease tolerance

Gianna has a good tolerance to leaf spot, red thread and rusts.

Confirmed on the Dutch Grasgids and UK STRI lists

Gianna enters the Dutch shortlist, with excellent scores for persistency, density and a good score for red thread tolerance and the STRI Turfgrass Seed guide with a very good score for recovery after wear.

Performance in France
